Hereinafter each individually referred to as “**the Authority**” and collectively as “**the Authorities**”.

The Authorities have agreed the following.

II. Introductory provisions

Whereas, in accordance with Article 20 of the Law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data, hereinafter referred to as “the Law of 30 July 2018”, in cases where a federal public authority transfers personal data to any other public authority or private entity on the basis of Article 6(1)(c) and (e) of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC, hereinafter referred to as “the GDPR”, it should, for each type of processing, formalise this transfer using a protocol negotiated between the initial controller and the recipient controller.

Whereas the Protocol shall be concluded after receiving the respective opinions of the data protection officer (DPO) of the federal public authority holding the personal data and of the data protection officer of the recipient.

Whereas the Protocol should be published on the website of the controllers concerned.

As both Authorities qualify as a public authority within the meaning of Article 5 of the Law of 30 July 2018 and mutually exchange personal data in their capacity as controllers in order to meet a legal obligation incumbent upon them and to fulfil a task carried out in the public interest or a task

which forms part of the exercise of the official authority vested in them, they shall conclude the present Protocol.

The terms used in this Protocol shall have the same meaning as in the GDPR or in the Law of 30 July 2018.

This Protocol shall apply only to the exchange of personal data and is without prejudice to the Authorities' legal obligations and to the existing cooperation protocols and agreements between the Authorities.

IV. Purpose and legal basis of the transfer of personal data

This Protocol shall apply to all transfers of personal data between both Authorities that are required or permitted by or pursuant to the laws governing the duties of the FSMA and the NBB. The legal duties of the Authorities in this context are described:

- for the NBB: in Article 12bis, §1 of the Law of 22 February 1998 establishing the Organic Statute of the National Bank of Belgium (hereinafter referred to as the “Law of 22 February 1998”); and
- for the FSMA: in Article 45, §1 of the Law of 2 August 2002 on the supervision of the financial sector and on financial services (hereinafter referred to as the “Law of 2 August 2002”).

The aforementioned duties are further specified in special sector-specific laws that are also published on the Authorities’ websites.

In the exercise of their legal duties, the Authorities are required to exchange information. This is either information that must be exchanged by law or information that is exchanged on the basis of the principle of collaboration between the Authorities as determined in their General Memorandum of Understanding (General Memorandum of Understanding of 14 March 2013 for collaboration between the NBB and the FSMA to ensure the coordination of the supervision of the institutions under their respective supervision) or on the basis of specific cooperation protocols (see below).

These information exchanges may include personal data. This Protocol shall supplement the existing protocols with regard to those exchanges of personal data.

Exchange imposed by law

In a number of cases, the legislation governing the Authorities’ duties provides for specific procedures for information exchange, consultation and deliberation between the two Authorities. This Protocol shall thus concern the transfer of personal data wherever the law provides for an opinion, consultation, information or other type of contact between the two Authorities, for example in the context of the fit and proper assessment of natural persons exercising a regulated function, or where consultation between both Authorities is necessary to ensure a uniform application of the legislation. Personal data, and no more personal data than necessary, shall be transferred only if, depending on the specific file, this is necessary for achieving the legally defined purpose.

Exchange in accordance with Article 45bis of the Law of 2 August 2002

Additionally, the FSMA and the NBB may, in accordance with Article 45bis of the Law of 2 August 2002, agree on terms of their voluntary collaboration in the areas determined by them.

Such a collaboration between the Authorities can take the form of, inter alia, an exchange of structured financial, accounting, statistic and/or prudential data that each Authority collects from companies or persons that are under supervision or subject to reporting requirements, in order to fulfil its own legal duties and tasks, and that prove necessary or useful for the exercise of the legal duties and tasks of the other Authority. The purpose of such a periodic exchange is, among other

things, to increase efficiency in the exercise of the Authorities' legal duties and to reduce the administrative burden for supervised persons by avoiding double collection of the same data.

Pursuant to the aforementioned Article 45bis of the Law of 2 August 2002, the Authorities concluded a general memorandum of understanding ("General Memorandum of Understanding for collaboration between the NBB and the FSMA to ensure the coordination of the supervision of the institutions under their respective supervision" of 14/03/2013, https://www.nbb.be/doc/cp/eng/vi/accord_collaboration/accord/pdf/nbb_fsma_2013_03_14.pdf) which defines the general principle of collaboration between the Authorities in the exercise of their respective supervisory duties. Additionally, the following specific or technical cooperation agreements have been concluded:

- 18/10/2012: Cooperation protocol between the NBB and the FSMA in the field of supervision and oversight of market infrastructures

- 01/03/2019: Framework agreement on the collaboration between the NBB and the FSMA relating to the periodic electronic exchange of structured data.
[not published on the website]

To the extent that personal data are exchanged between the NBB and the FSMA on the basis of these cooperation agreements, this Protocol shall also apply to those exchanges of personal data.

V. Categories of personal data transferred

Depending on the purposes of the processing and on the specific file, the following categories of personal data may be transferred insofar as necessary:

- Name and first name
- Date of birth
- Contact details
- Information on past and current employment and on professional activities
- Information on fitness and propriety (where appropriate including data relating to criminal convictions and offences within the meaning of Article 10 of the GDPR)
- Information on shareholding
- Financial information

If circumstances require, other personal data may also be transferred to the extent permitted by law.

VI. Modalities of communication

For the exchange of personal data, the Authorities shall only use channels that provide sufficient guarantees for the protection of the personal data exchanged.

More specifically, the same channels shall be used for these exchanges of personal data as for the exchange of other information covered by the obligation of professional secrecy, i.e. in principle a secure transmission channel for automated data exchange and encryption techniques for e-mail traffic.

VII. Security of personal data

The Authorities shall ensure the confidentiality and integrity of the personal data.

Without prejudice to any specific security measures that might result from the law or from the cooperation agreements between the Authorities, each Authority shall be responsible, in accordance with Articles 32 to 34 of the GDPR, for implementing technical and organisational security measures to protect the data communicated against any unauthorised or unlawful processing and against accidental loss, destruction or damage.

The Authorities and those who process the personal data received shall all be bound by a legal obligation of professional secrecy (the FSMA pursuant to Article 74 of the Law of 2 August 2002, the NBB pursuant to Article 35 of the Law of 22 February 1998) or by equivalent confidentiality clauses relating to the personal data received.

VIII. Legal restrictions on the rights of data subjects whose personal data are exchanged

The rights of data subjects with regard to their personal data, as conferred by the GDPR, shall be limited by the following legal provisions:

- With regard to the NBB: Article 12quater of the Law of 22 February 1998 establishing the Organic Statute of the National Bank of Belgium.

completely restricted for the processing of personal data as referred to in Article 4(1) of the same Regulation by the Bank in its capacity as controller responsible for the performance of tasks carried out in the public interest, tasks relating to the prevention and detection of criminal offences, and a monitoring, inspection or regulatory function connected to the exercise of official authority:

The derogations referred to in paragraph 1, 1°, 2° and 3° shall apply as long as the data subject has not, where appropriate, gained legal access to the administrative file concerning him or her which is held by the Bank and contains the relevant personal data.

§ 2. Article 5 of the aforementioned Regulation 2016/679 shall not apply to the processing of personal data as referred to in § 1 insofar as the provisions of that Article correspond with the rights and obligations provided for in Articles 12 to 22 of that Regulation.

§ 2. Article 5 of Regulation 2016/679 shall not apply to the processing of personal data by the FSMA in the same cases as those referred to in § 1, insofar as the provisions of that Article correspond with the rights and obligations provided for in Articles 12 to 22 of Regulation 2016/679.

The Authorities shall each be responsible for fulfilling their obligations arising from the exercise of the rights of the data subject and shall, where necessary, cooperate effectively in fulfilling those obligations.

IX. Categories of recipients and transfer to third parties

Within the controller receiving the data, the personal data shall only be transferred to the persons for whom the processing of such data is necessary for the exercise of their functions. Depending on the area of supervision and insofar as required by the concrete circumstances of the case ("need-to-know principle"), these persons are the following:

- For the NBB: persons who are members of the board of directors, the Secretariat General, the Legal Service, the Prudential Supervision of Banks and Stockbroking Firms department, the Prudential Supervision of Insurance and Reinsurance Companies department, the Resolution Unit, and the Surveillance of financial market infrastructures, payment services and cyber risks department;

Personal data may be transferred to individuals outside the controller receiving the data, where this is required to achieve the purposes of the processing (e.g. to service providers required for the performance of the Authority's tasks, such as a lawyer representing the interests of the Authority). If circumstances so require, the Authority and the third-party recipient shall, pursuant to Article 28 of the GDPR, conclude a processing contract prior to the transfer of the personal data.

The personal data may also be transferred to individuals outside the controller receiving the data, where their transfer is required or permitted by or pursuant to the laws governing the duties of the

Authority concerned (e.g. to other public or judicial authorities). For the NBB, the transfers referred to will in principle be transfers carried out in accordance with Articles 35/1 and 36/14 of the Law of 22 February 1998, and, for the FSMA, transfers carried out in accordance with Articles 74 and 75 of the Law of 2 August 2002.

The foregoing shall be without prejudice to any specific conditions or restrictions applying to transfers, as laid down by European or national legislation or by applicable cooperation agreements.

X. Processors

Each Authority shall be responsible for the choice of its own processors and for complying with Article 28 of the GDPR when processing is carried out by a processor.

XI. Periodicity of the transfer

The periodicity of the transfer of the personal data shall depend on what is provided for in the law or in the applicable cooperation protocol on the basis of which the transfer is carried out.

Apart from ad hoc data exchanges, certain data shall also be exchanged periodically. These periodic transfers can take the form of daily transmissions aimed at updating signalling information¹ or periodic transmissions, depending on the availability of the information (of a financial, accounting, prudential or statistical nature) communicated by the companies under supervision or by other companies subject to statutory reporting obligations.

XII. Infringements and sanctions

Where an Authority finds that the other Authority infringes the obligations of this Protocol, it shall immediately inform the other Authority and request it to take the necessary measures to bring such infringement to an end. As long as the infringement persists, it may suspend or restrict the transfer of personal data to that other Authority to the extent legally possible and taking into account the principle of proportionality and the purpose of the transfer.

XIII. Amendments to the Protocol

The Protocol may be amended in writing at any time, by mutual consent between the Authorities.
