New logical checks in OneGate (for 2016 payments data collection) - **clarification**

In order to avoid any confusion, please find a clarification about the new check 2:

**New Check 2:** (Table 6) – Total number of cards

6001600 must be equal or greater than 6001000 **or** 6000200 **or** 6000300

Reasoning: logical check : the total always has to be equal or greater than **each of** the subcategories
