Deadline for reporting the 2016 payments statistics data

Some reporting agents have difficulties in respecting the deadline of 28 April. Thanks to the high quality of the already received 2016 data, the NBB can reduce its time window for verification during the month of May: as the NBB will need less time to verify, update and aggregate before sending the data to the ECB by the end of May, the NBB will allow the reporting agents that cannot deliver before the end of April an extension of the reporting period until

Friday 5 May COB!

The OneGate input tool will be blocked irreversibly after COB on 5 May.
