List of partial derogations for 2023 data reporting

The ECB Regulation 2020/59 allows the NCBs to grant partial derogations in the payments data reporting. The list of Belgian institutions granted such a derogation for the 2022 data was published before on the NBB website and needs to be revised on a yearly basis.

The NBB has taken into account the recently reported 2021 data to revisit the list of partial derogations. The NBB Board has approved the [new list](#), which reflects those institutions that will continue to be granted a derogation for the 2023 data reporting.

In general, there are no institutions that have lost their 2022 derogation right for the reporting of the 2023 data.

Next year in June, the list of institutions with derogation will be reviewed again.

All infofiches are available [here](#)
