

General Information	
Request raised by: NBB-SSS	Date raised: 13/06/2017 (to be filled in by NBB-SSS)
Request title: define SWIFT messaging at account level	Request ref. no: NBBSSS-MCR-06
Request type: Common CR	Urgency: Normal (to be filled in by NBB-SSS)
1. Legal/business importance parameter: M	2. Market implementation efforts parameter: L
3. Operational/Technical risk parameter: H	4. Financial impact parameter: (H, M, L) (to be filled in by NBB-SSS)
Requestor Category: CSD, Participant	Status: (Registered, Under Preliminary assessment, Pending with CRG...) Registered for UC 21/9/2017

Reason for change and expected benefits/business motivation:

Now messaging is sent to the BICS defined at participant level. When definition on account level would be possible, flexibility of messaging an PoA on account level would increase significantly.

Description of requested change:

Possibility to create messaging at account level, **additionally** to messaging at participant level.

If messaging found at account level, use it, if not, use the one at participant level.

No impact on existing users who don't want to use it.
