- When calculating the interest to be paid, if necessary, the NBB-SSS takes the "Bond factor" into account, which is the percentage of the capital outstanding over the interest period in relation to the original amount issued. The fraction made up by the Bond factor is expressed in a number with twelve decimals. The Bond factor to be applied for any new interest period shall be notified to the NBB at the latest by 15:00 CET on the second Business day preceding each interest period.
